Wera Bit Drivers, Bits, & Adapters

Tool-Check Tool Sets

Wera Tool-Check systems deliver very compact tool organization for manual and machine use. Green locking elements secure tools during transport, preventing movement and loss. The 1/4" bit ratchet features drop-forged solid steel construction with fine 60-tooth mechanism for a 6° return angle, enabling precise work in confined spaces. Ergonomically shaped ratchet head with easy clockwise/counterclockwise switching ensures comfortable operation. Zyklop sockets include ball stop grooves and rear-end knurling for secure retention and manual screwdriving control. Take it easy tool finder system uses color coding by size and profile for quick tool identification. BiTorsion bits feature integrated torsion zones that prevent premature breakage during high-torque applications. The 870/1 adapter enables 1/4" socket compatibility for all Tool-Check systems. Matte chrome-plated chrome-vanadium construction provides corrosion resistance and durability.

Features

- Green locking elements secure tools during transport and prevent loss
- Drop-forged 60-tooth bit ratchet with 6° return angle for precise work
- Ergonomically shaped ratchet head with easy clockwise/ counterclockwise switching
- BiTorsion bits feature torsion zones that prevent premature breakage
- Take it easy tool finder color coding for quick tool identification
- Zyklop sockets with ball stop grooves for secure retention
- Matte chrome-plated chrome-vanadium construction for corrosion resistance
- Includes 870/1 adapter for 1/4" socket compatibility
- Super-compact storage maximizes space efficiency
- Available in metric and imperial configurations
