

# IronHorse ACG Series Accessories

## ACG Ethernet Module

The ACG-ET2 is an option module for connecting any ACG series drive to an ethernet network. The module supports both the EtherNet/IP and Modbus TCP protocols.

| ACG Ethernet Module |          |                                                                                                                                                                                                             |
|---------------------|----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Part Number         | Price    | Description                                                                                                                                                                                                 |
| <b>ACG-ET2</b>      | \$105.00 | IronHorse ACG series communication module, EtherNet/IP and Modbus TCP, 2 ports, (2) Ethernet (RJ45) and (1) RS-485 (RJ45) port(s). For use with IronHorse ACG series AC drives. Mounting hardware included. |

**ACG-ET2**

**Installed on ACG Drive**
