WEG CFW Series Software

CFW-WPS Software Package

WEG CFW-WPS configuration software is available as a free download or on a USB card. The software is compatible with all CFW100, CFW300, and CFW500 drives. Requires a PC USB port, and either a USB-485M serial adapter or a USB cable, and the following:

CFW100:
 • Using RS485 via the CFW100-CRS485 module
 • Using USB via the CUSB module

CFW300:
 • Using RS485 via the CFW300-CRS485 module
 • Using RS232 via the CFW300-CRS232 module

CFW500:
 • Using RS485 via either the CFW500-IOS module or an optional module (CFW500-CRS485-B)
 • Using USB via the CFW500-CUSB module
 • Using Ethernet communications with option modules (CFW500-CETH-IP) and RJ45 cable
