Valves and Accessories

Overview

StackFlow™ product line from CITO Products offers a robust series of modular process valves. Body sections can stack together to form a valve bank assembly with common inlets at each end and outlets discharging at the bottom of the assembly. Distribution block, manual ball valve and solenoid diaphragm valve models are available and can all be mixed in the same assembly.
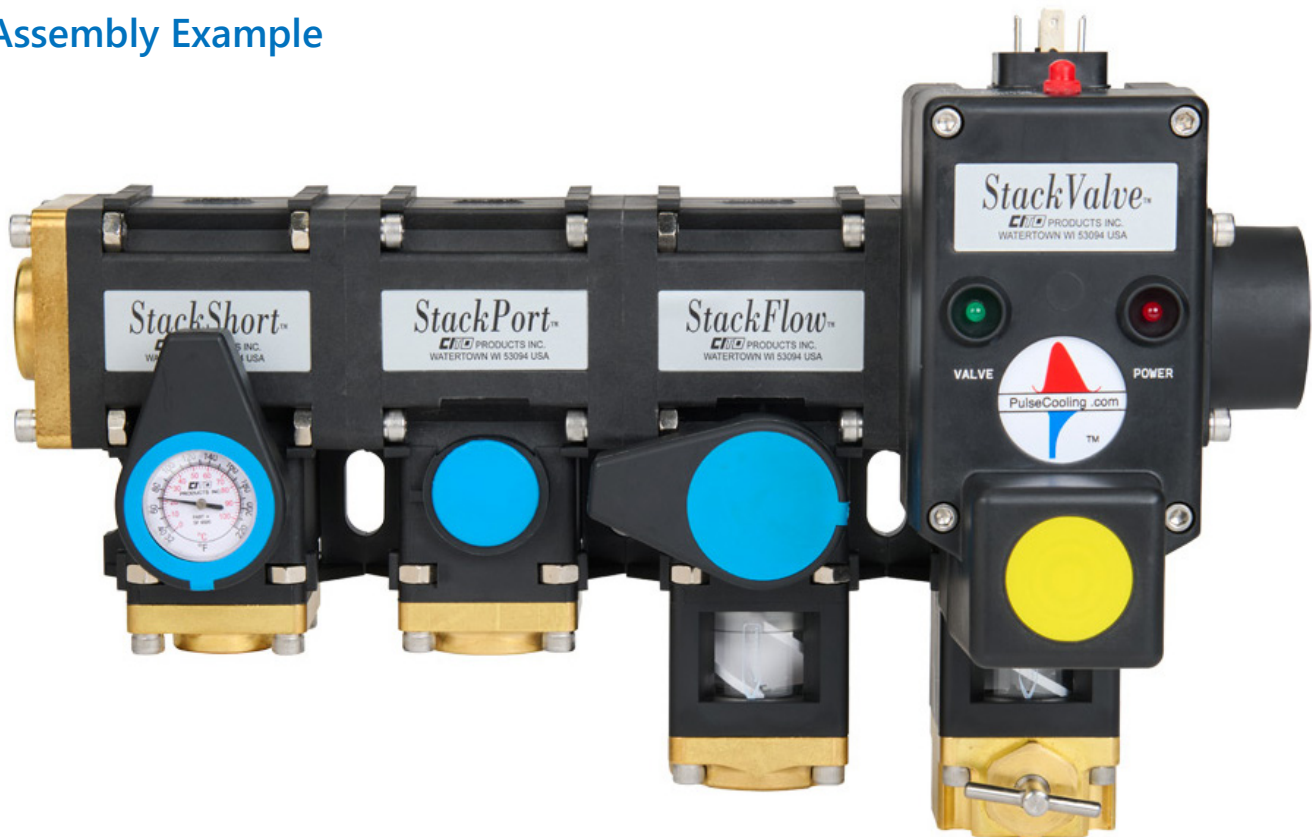

Features

• High flow capacity glass-filled nylon bodies
• Integral flow indicator available on some models
• 24 VAC/DC and 120VAC solenoids
• Cleanable inlet screens allow operation in tough environments
• Pressure and temperature gauges available
• Working fluids: water, coolant, oils
• Made in USA
