

Gladiator Circuit Protectors GECP Series

Electronic Circuit Protectors Overview

The Gladiator electronic circuit protectors (ECP's), provide reliable load monitoring and protection in 24VDC control circuits. The <u>GECP-1CH-1-10A</u> features include adjustable trip current range (1-10A), patented adjustable characteristics fast, medium, slow 1, slow 2, and slow 3. All ECP's output alarm signal at 90% of the load setting, remote set/reset. In addition to factory floor applications, the ECP's serve well in remote locations and other hard to access applications. Narrow construction ensures compact design even with multi-channel configurations. No derating required as Gladiator ECP's function independently of ambient temperature.

Features

- LED status indicator at 90% of the overload ratio
- Output trip alarm
- LED status indicator on/off/alarm
- Remote Set/Reset
- Ideal for remote locations
- Independent of ambient temperature, no derating required
- 35mm DIN rail mounting
- 5-year warranty

GECP-1CH-1-10A

Single Channel Electronic Circuit Protectors											
Part Number	Price	Voltage Rating	Amperage Rating	Number Of Channels	Input Voltage	Output Voltage	Trip Curve	Connection	Mounting	Drawing Link	
GECP-1CH-1-10A	\$44.00	12/24 VDC	1-10A Adjustable	1	10-30 VDC	10-30 VDC	Selectable	Spring terminals	35mm DIN rail	<u>PDF</u>	
GECP-1CH-1A	\$29.50	12/24 VDC	1A	1	10-30 VDC	10-30 VDC	Slow 1 curve	Spring terminals	35mm DIN rail	<u>PDF</u>	
GECP-1CH-2A	\$29.50	12/24 VDC	2A	1	10-30 VDC	10-30 VDC	Slow 1 curve	Spring terminals	35mm DIN rail	<u>PDF</u>

LED Operation								
Status LED	Explanation							
LED Green, [ON]	Function is OK*							
LED Green, Flashing 1Hz [Overload]	Load about 90% of 1 nominal							
LED Green, Flashing 5Hz [Overload]	Load above 100% of 1 nominal							
LED Red, [OFF]	Module switched off or acknowledged*							
LED Red, Flashing 1Hz [Overload]	Output off due to overload/short circuit*							
LED Red, Flashing 5Hz [Error]	Wiring error - feedback (internal error)							
LED Red, Flashing Shortly [OFF]	Output off via remote set/reset							
LED Red/Green, Flashing 1Hz [ON]	Target settings via rotary switch deviate from actual settings: NOTICE: Switching off and on via pushbutton required.							
Button*** [ON/OFF]	Nominal operation: ON/OFF Load monitoring tripped: 1st push: acknowledge 2nd push: ON							
Rotary Switch (I) - Switch Position**	GECP-1CH-1-10A - current adjustment 1-10A							
Rotary Switch (C) - Switch Position**	Characteristic: 1: Fast, 2: Medium, 3: Slow-1, 4: Slow-2, 5: Slow-3							

^{*} If the operating voltage is switched off, the last status is saved. (Default)

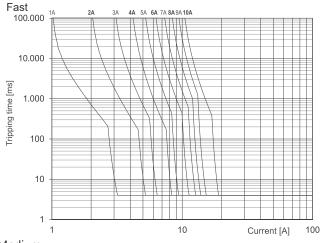

^{**} Accept the setting - after switching on again via the button, not by Remote Set/Reset.

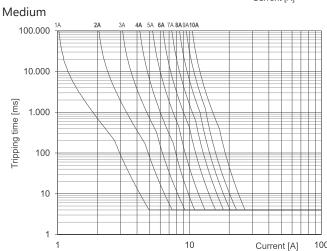

^{***} Master Function - switch off via pushbutton, can only be switched on again via pushbutton.

Technical Data

NOTICE: Always refer to the respective current data sheet. This can be found on the product page of the product.

Gladiator GECP Series Circuit Protectors

Supply Terminals

Overview

The GECP-24V-SS is used to supply 24V to the Electronic Circuit Protectors (ECP's) via 4- or 8-pin busbar, or by jumpering to the ECP's in the system.

The GECP-0V-TERM is used to bus together 0V signal to the ECP's in the system.

Features

- Single-channel design
- 40A maximum amperage rating
- 0VDC or 24VDC operating voltage
- 35mm DIN rail mounting

GECP-24V-SS

Gladiator GECP Series Circuit Protectors

Busbar Features

- For busing power between 4 or 8 ECPs
- Copper with tin-plated surface
- 40A amperage rating
- 4- or 8-pin units available
- Must be used with 24V supply set part number GECP-24V-SS

	Busbars

Jumper Comb Features

- For jumpering status outputs, 0V input, or for the set / reset terminals
- 6A amperage rating
- · Push-in terminals
- 8-pole
- PVC material with FeZn contacts
- Blue normally used for 24V
- Red normally used for signal
- White normally used for 0V

Gladiator GECP Series Circuit Protectors

Standalone System

Optional 24VDC Supply Set GECP-24-SS

1-Channel Protection Modules Fixed - 1, 2, 4, 6 and 8A Adjustable: 1-10A

Protection modules are standalone or can be integrated into a modular system using supply and ground modules -See below

Modular System

Switches allow quick toggling of power on and off the bus bar

1-Channel Protection Modules Fixed - 1, 2, 4, 6 and 8A Adjustable: 1-10A

(Protection modules integrated into a modular system using supply and ground modules)

> **Insulated Jumper Combs** Available in Red, White, or Blue

Optional busbars provide supply power to 4 or 8 protection modules

Optional Ground Supply Module GECP-OV-TERM

Easy-to-wire push-in terminals with release buttons

Remote reset and remote **ON/OFF** functions
