GSD7 Series DC Drives					
Motor Rating Range @ 120 VAC _{IN}	1/50 – 1 hp				
Motor Rating Range @ 240 VAC _{IN}	1/25 – 2 hp				

Overview

Instant reversing, quick stopping, rapid cycling... The IronHorse GSD7 series DC drives outperform other dynamic braking and reversing drives by utilizing unique zero-speed detect and dynamic braking circuits.

These circuits eliminate the contact arcing and failed braking problems associated with other reversing and dynamic braking drives. The GSD7 zero-speed detect circuit also eliminates motor plug reversing problems.

In the event of a power loss or emergency stop condition, the GSD7 Series DC drives will drop into a dynamic brake condition to safely and quickly bring the motor to a stop.
