## **IP69K Sanitary Screw Cover**

#### **Features**

- Designed to enclose electrical and/or electronic equipment and protect against harsh, sanitary environments for junction box and wall-mount applications.
- Sloped on four sides prevent water from pooling on top regardless of enclosure orientation.
- Hex head screws and door-edge mounted silicone gasket allow for easy cleaning in sanitary environments.

#### Construction

- Formed 304 stainless steel with a smooth, #4 dairy finish.
- Sloped 3° on all four sides.
- · Continuously welded seams ground smooth.
- Hex head screw cover can be completely removed for modifications.
- Silicone gasket mounts around entire door edge allowing for efficient cleaning in sanitary environments.
- Gasket can be easily removed and reinstalled for cleaning or replacement. Additional silicone gaskets can be ordered separately
- Formed lip on enclosure to exclude flowing liquids and contaminants.
- Collar studs provided for mounting subpanel.
- Includes hardware kit with panel mounting nuts.
- Bonding stud provided on door and grounding stud installed in enclosure.
- No pre-drilled wall-mounting holes to allow for flexible mounting alternatives.
  - May be installed with standoffs (sold separately) to allow for cleaning of back of enclosure, or welded in place.

# **IP69K Sanitary Pushbutton**

### **Applications**

Designed to accept pushbuttons and indicators while protecting against harsh, sanitary environments.

#### Construction

- Formed 304 gauge steel
- Sloped 3° on all four sides to prevent water from resting on top regardless of orientation.
- · Smooth continuously welded seams.
- Hex head screw cover can be completely removed for modifications.
- · Silicone gasket mounted around entire door edge and hex-head screws allow for efficient cleaning in sanitary environments.
- · Gasket can be easily removed and re-installed for cleaning or replacement.
- · Additional silicone gaskets can be ordered
- Multiple pushbutton hole configurations with either 22 mm [0.87in] or 30 mm [1.18in] notched pushbutton holes.
- No pre-drilled wall mounting holes allow for flexible mounting alternatives.
- May be installed with standoffs (sold separately) to allow for cleaning of back of enclosure, or welded in place.
- Bonding stud provided on cover and grounding stud installed in enclosure.

#### **Finish**

 Cover and enclosure are natural stainless. steel with a smooth #4 dairy finish.
