Hydro Mode. Food Grade - FR Series Regulators

HydroMode™ FR Series Food Grade Regulators are compact units that provide economical, high performance pressure regulation of drinkable water. The highly sensitive diaphragm-operated design delivers accurate downstream pressure and the molded rubber supply valve provides precise regulation while helping to prevent leakage. Materials in contact with water are approved by National Sanitation Foundation (NSF) or the Food and Drug Administration (FDA) for use in potable water systems. All elastomers used in their construction are food grade.

Features

- NSF electrodeposited chromium plated zinc body
- FDA acetal bonnet, valve seat
- · Food grade nitrile/nylon diaphragm, O-ring
- · Lead-free brass and food grade nitrile valve plug
- Mounting by pipe or bracket and panel mountable (with optional panel nut)
- (2) 1/8" NPT gauge ports
- 1/8" and 1/4" NPT ports
- Made in the USA

Regulator

FR Series Regulators									
Part No.	Price	Weight (lbs)	Port Size (FNPT)	Fluid	Flow Capacity	Operating Pressure	Maximum Supply Pressure		
FR-817	\$35.00	0.4	1/8"		2.2 gal/min	0-100 psi (0-0.69 MPa) (0-6.9 bar)	150psi (1.03 MPa) (10.5 bar)		
FR-827	\$35.00	0.4	1/4"	Water					

Note: A filter (40 micron or less) is recommended ahead of regulator.
