Hydro Mode Potable Water Push-to-Connect Fittings

HydroMode push-to-connect fittings are designed to work with potable water and beverages. Installing or removing flexible tubing is quick and easy. All fittings are made of NSF approved materials with NSF-51® and NSF-61® certifications. The body and collet of the fittings are made from polyoxymethylene (POM) also known as acetal, while the o-rings are made from ethylene propylene diene monomer (EPDM) which is a type of synthetic rubber.

Features

- · Designed for potable water and beverages
- NSF-51 and NSF-61 certified
- · Easy tubing installation and removal
- · Optional retaining clips prevent accidental tube removal
- Fittings rated for up to 145psi at 70°C (158°F)
