

# IDEM Z-Range Safety Switches

IDEM's Z-Range of products have one set of dual OSSD outputs and one set of dual OSSD inputs. This enables the devices to be wired in series, reducing cost and time associated with wiring back to the panel. Up to 30 Z-Range devices can be connected to one safety relay.

These safety switches feature self monitoring OSSD outputs to achieve CAT 4 PLe, according to ISO 13849-1, and SIL3, according to IEC 62061, even when connected in a series.

Components in the Z-Range consists of non contact switches, hinge switches, emergency stop control stations, solenoid locking RFID tongue interlocks, and non-locking tongue interlocks, along with t-port cables, connection blocks and accessories.

## Z-Range Safety Switch Installation Example

Set-ups similar to the one illustrated here may also include these other Z-Range safety components:

Non-Contact Rectangular Switch

Hinge Switch

Cable Pull

# IDEM KLP-Z/KLM-Z/KL3-Z Tongue Interlock Safety Switches with Guard Locking and RFID Coding

## Description

IDEM's KLP/KLM/KL3 Series of RFID Coded Safety Switches has been designed to fit into the leading edge of machine guard doors to provide robust guard locking while also providing a double tamper resistant interlock mechanism.

They are designed to provide robust position interlock detection for moving guards and will remain locked until the solenoid voltage is applied to the switch.

These switches can be used in conjunction with delay timers to provide the solenoid energize signal only after a pre-determined amount of time has passed.

When used in combination with a dual channel safety relay or control device, Non-Contact Safety Switches can be used to provide protection up to Category 4 and PLe to ISO13849-1.

## Features

- Highly effective anti-tamper RFID coding.
- Holding force of 3000N to keep guard doors closed until hazards have been removed.
- Unique rotating head offers both front and end actuation.
- Diecast housing fitting with a robust 316 stainless steel head.
- Choice of standard or flexible actuators.
- For use as directed by ISO14119 and EN ISO12100

## KLP/KLM/KL3 Tongue Interlock Safety Switches with Guard Locking and RFID Coding Selection Guide

Part Number	Price	Body Material	Actuator Type*	Connection	Circuits	Head	Holding Force	To Unlock
<a href="#"><u>KLP-Z-455002AZ</u></a>	\$347.00	Polyester	Standard actuator	Two 0.5 in [12.7 mm] NPT cable entries	2 OSSD outputs	90° adjustable	2000N	24VDC
<a href="#"><u>KLP-Z-455002HFZ</u></a>	\$385.00	Polyester	Flexible actuator	Two 0.5 in [12.7 mm] NPT cable entries	2 OSSD outputs	90° adjustable	2000N	24VDC

# IDEM Cables

## Connection Cables

IDEM connection cables are sold as a complete cable that is not meant to be cut into, so the manufacturer doesn't guarantee the internal wire colors will always be the same. It will always be pin 1 to pin 1, pin 2 to pin 2, etc., but the internal colors might change.

Only the pigtail cables have fixed wire colors.

### IDEM Connection Cables General Specifications

<b>Temperature Rating</b>	105°C [221°F]
<b>Core</b>	22 strands of 0.12 mm bare copper
<b>Inner insulation (Core) Diameter</b>	1.35 (±0.1) mm
<b>Outer Sheath (Jacket) Color</b>	Black (printed)
<b>Outer Insulation</b>	PVC
<b>Inner Insulation</b>	PVC
<b>Number of cores</b>	8 cores (24AWG) UL style 2517
<b>Rated Voltage/Current</b>	250V / 3A

# IDEM M12 Connection Box For Use With Z-Range Switches

## Features

- When combined with the T-port, allows you to connect up to 30 Z-Range devices in series to a single safety controller
- Configured for dual channel to a safety controller
- Shorting plugs must be inserted into all unused ports
- M20 conduit exit; M20 cable gland accepts cable OD 6.5-12.0 mm [0.26-0.47 in]
