

## **Power Supplies - Switching CPS 3-Phase Series**

### Overview

LUTZE 3-phase Compact power supply series are reliable 24VDC and equipped with an efficiency rating of over 91%, resulting in low power loss and low heat dissipation. The integrated power boost function allows for higher peak loads to be energized for a short period of time. An advantage of the remote on/off function is the convenience to remotely switch the unit on and off, therefore significantly reducing energy consumption. Additionally, status indication via a status output relay allows for remote monitoring.

#### **Features**

- Aluminum housing
- 35mm DIN rail mount
- IP20 rated
- 5 year warranty
- Superior power output to size ratio

#### CPSB3-120-24
