

# Master Appliance Heat Guns

## Overview

Master Heat Guns are the result of more than 60 years of leadership in building rugged, reliable heat guns.

AutomationDirect is proud to offer a robust selection of handheld electric heat guns and tools. Ranging from North America's #1 best selling heavy-duty industrial heat gun to the small but powerful pencil-style EC-MINI, we have a heat gun to meet your needs. You can find the Master brand used in some of the most demanding production environments by many of the most well-respected companies worldwide.

All Master products are made from superior quality materials and the finest craftsmanship. With over 60 years of experience, the Master name stands for uncommon expertise in heat technology and quality products.

So whether you are looking for the industry's most rugged and reliable heat tools for heavy-duty industrial use or DIY projects, Master Appliance heat guns will blow you away!
