P2-06TRS \$107.00

Isolated Relay Output

The P2-06TRS high-current isolated relay output module provides six, 7A surge-protected relay outputs for extended life. The module offers both normally open and normally closed relay contacts. For use with the Productivity2000 system.

Terminal block sold separately.

ZipLink connectors are not compatible with this module. P2-RTB13 or P2-RTB13-1 removable terminal blocks must be ordered separately.

NOTE: The most recent Productivity Suite software and firmware versions may be required to support new modules and new features.
