RACO[®] Liquid-Tight Connectors

Straight Connectors

Applications

- For use in outdoor or indoor locations on flexible metallic liquid-tight conduit and Type B flexible non-metallic liquid-tight conduit
- Use to positively bond the conduit to a box or enclosure
- RACO® liquid-tight connectors are suitable for use in Class I, Div 2; Class II, Div 1 & 2; and Class III, Div 1 & 2 hazardous locations

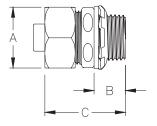

Features

- Patented split gland-ring is designed to slip onto the conduit quickly and to rip the jacket of the conduit, speeding installation, assuring a perfect seal, and preventing pullouts
- All components are reusable. RACO® liquid-tight connectors may be easily disassembled and reused after years of service
- Included sealing washer provides a liquid-tight seal when terminating the connector in a threadless opening
- Heavy duty locknut included with every RACO® liquid-tight connector assures continuity of ground
- All steel/iron components are zinc-electroplated for added corrosion protection
- Dry Temperature -55 to 105°C [-67 to 221°F]

Approvals

- Standard 514B, UL Listed E195969
- CSA Certificate 1456072

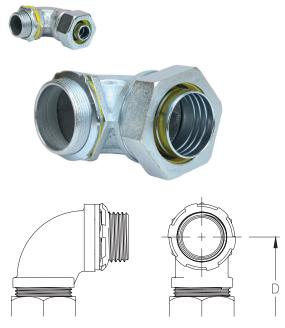

Please see our website www.AutomationDirect.com for complete engineering drawings.
