## Swivellink Mounting System Standard Series (Metric Units)

Swivellink<sup>®</sup>

Swivellink Mounts are a better way to mount vision cameras, lights, and sensors. Because of the flexibility and range of Swivellink's patented design, you can fine-tune each installation to just about any position required. Components are made from aluminum alloy for light weight and structural rigidity. Both Metric and Imperial/English versions are available; however, they are not interchangeable.

This page describes Swivellink's SLM components, which are gray in color and are in Metric units.

Consider the following when selecting your components:

- · Amount of weight the mount will be holding
- The overall length of the mount
- The area you have to work with

Carrying capacity varies with overall length and system configuration. The Standard series can hold up to 30lb [13.6 kg] at 1ft [0.3 m] with all screws torqued to 50 in·lb [5.65 N·m].

Swivellink Bases (Metric) Selection Guide						
Part Number	Price	Description	Weight (g [oz])	Drawing		
<u>SLM-1</u>	\$32.00	Round ball base	149.7 [5.28]	PDF		
<u>SLM-1-40</u>	\$47.50	Narrow ball base	149.7 [5.28]	PDF
