

Overview

The process used to join different types of metals together is often referred to as soldering. Soldering in the electrical industry is used to create a strong electrical bond and for years has been the go-to method of making a permanent connection between wiring and components. AutomationDirect is proud to offer a line of soldering irons and guns from Wall Lenk. Wall Lenk is a US-based company that has been manufacturing quality products for over 160 years right here in the USA.

Our offering includes pencil style irons ranging from 25 to 80 watts, which contains options for a 30-watt cordless USB rechargeable version. Varying tip styles allow for most all your soldering requirements, including a heat shrink tip for those hard-to-reach spots.

	Soldering Iron O	vervie	W

WLQ30SI		30W	Electronics Fine Wiring Hobbies Heatshrink Tubing

Sometimes you need to turn up the heat, so check out the heavy duty dual heat guns. With ranges from 100 to 400 watts in a variety of sizes and tip styles, these guns are great when there is a large working area or heat dissipation is an issue.

The corded versions all carry the UL mark so you know they are reliable and safe. They have proudly been made in Kinston, NC since 1966.

If you need to make a solid, reliable, permanent electrical connection, check our line of Wall lenk soldering equipment.

25W Soldering Iron

The Wall Lenk 25W soldering iron is a small, lightweight iron great for fine soldering applications such as fine wiring, electronics, and hobbies.

Features

- Pencil style provides better control and handling
- Impact-resistant polycarbonate handles and stainless steel shaft for durability
- Mica insulated nichrome heating element for efficient heat transfer and tip temperature
- Tip is replaceable
- Includes:
 - 6ft power cord
 - Tool stand
- Made in USA

	25W Soldering Iron Sets											
Part Number	Wattage	Soldering Tip Style	Power Source	Heat-up Time	Maximum Tip Temperature	Includes	Price					
<u>WLL25</u>		pointed				pointed tip and tool stand	\$16.25					
<u>WLL25K</u>	25W	pointed chisel fine point	120VAC	5 minutes	900 deg F	pointed tip, chisel tip, fine pointed tip, 1/2 ounce lead free solder and tool stand	\$21.50

WLL25FT		fine point		1in	0.085in		\$4.50					

40W Soldering Iron

The Wall Lenk 40W soldering iron is a general purpose workhorse great for a variety of household applications: electronics, small appliances, and lawn and garden projects.

Features

- Pencil style provides better control and handling
- Impact-resistant polycarbonate handles and stainless steel shaft for durability
- Mica insulated nichrome heating element for efficient heat transfer and tip temperature
- Tip is replaceable
- Includes:
 - 8ft power cord
 - Tool stand
- Made in USA

WLL40FT		fine point		1in	0.128 in		\$4.50					

80W Soldering Iron

The Wall Lenk 80W soldering iron is a heavy-duty iron that handles those bigger jobs efficiently and economically. Great for a variety of industrial applications: heavy wiring, sheet metal, automotive, and plumbing.

Features

- Pencil style provides better control and handling
- Impact-resistant polycarbonate handles and stainless steel shaft for durability
- Mica insulated nichrome heating element for efficient heat transfer and tip temperature
- Tip is replaceable
- Includes:
 - 8ft power cord
 - Tool stand
- Made in USA

100W Soldering Gun

The Wall Lenk 100W soldering gun is a light-duty soldering gun for fine, intricate soldering: fine wiring, hobbies, electronics, and small appliances.

Features

- Balanced tool design is more comfortable and easier to use
- Tip heats up in less than 1 minute
- Quick change type tips can be easily changed within 30 seconds
- Integral tool stand keeps heated part of the tool out of harm's way
- · Reusable clamshell packaging
- Includes 6ft power cord

Cordless Soldering Irons

The Wall Lenk 30W Quick FX3 soldering iron and heat shrink tool are small, lightweight, cordless irons great for fine soldering applications such as fine wiring, electronics, and hobbies

Features

- Quick charge
- · Quick heat up
- Quick change tips
- · Ergonomically designed
- LED work light
- Multi-function tips
- Lightweight
- Easy to use
- Replaceable tips
- USB rechargeable

Dual Heat Soldering Guns

The Wall Lenk dual heat soldering guns are medium-to-heavy duty guns that can be used in a variety of applications: heavy wiring, automotive, and sheet metal.

Features

- Built-in spotlight illuminates the work area
- Large 1-finger trigger switch located for optimum heat control and comfort
- Balanced tool design is more comfortable and easier
- 3-position trigger control (high, low, or off) provides excellent control of tip heat for more precise soldering, cutting, or smoothing functions
- Tip heats up in less than 1 minute
- Quick change type tips can be easily changed within 30 seconds
- Includes:
 - 8ft power cord
- · Made in USA

Dual Heat Soldering Guns

The Wall Lenk dual heat soldering gun is a medium duty soldering gun for a variety of soldering applications: automotive, appliances, motors, generators, electrical wiring, sheet metal, and more.

Features

- Dual wattage elements:
 - High wattage heats tip in seconds, lower wattage maintains rated tip temperature
- Effective tip temperature:
 - Tip temperatures of 1000°F or more for effective heavy duty, sustained soldering
 - · Integrated work lamp
- Includes:
 - 5ft power cord
 - Tool stand
- Made in USA
