Applications
Designed to house electrical and electronic controls and instruments. Pushbuttons, pilot lights, meters, switches, etc. can be mounted on sloping control surfaces. Interior components can be mounted on standard subpanel. Heavy-duty construction provides protection from dirt, dust, oil and water.

Construction
• Bodies and doors fabricated from 14-gauge steel
• Continuously-welded seams ground smooth, without knockouts, holes or cutouts
• 3-point keylocking handle is provided on front, main door
• Main door on console is raised
• Control panels are hinged along bottom edge
• Controls panels, access panels and instrument panels have captivated screws that thread into sealed wells
• Door stops provided to hold control panel open
• Closed-cell neoprene gasket
• Removable subpanel included with enclosure
• Grounding provisions provided
• Uses WAL2 series handles and WAL2KEY replacement key

Finish
• ANSI 61 gray polyester powder inside and out over phosphatized surfaces
• Included painted steel subpanel is white polyester powder over phosphatized surfaces

Applications
Designed to house electrical and electronic controls, instruments and components. Heavy-duty construction provides protection from dirt, dust, oil and water. Sloping front control panel provides an ideal surface for mounting pushbuttons, pilot lights, meters and switches. Interior components can be mounted on panels located on the sides and back of the enclosure. (subpanels are optional.)

Construction
• Bodies and doors fabricated from 14-gauge steel
• Continuously-welded seams ground smooth, without knockouts or holes
• Control panel attached with continuous hinge along bottom edge and secured with captive screws, threaded into sealed wells
• Door stops provided to hold control panel open
• Closed-cell neoprene gasket
• Collar studs provided for mounting one, two or three optional panels
• Grounding provisions provided
• 3-point keylocking handle is provided on the front access door
• Uses WAL2 series handles and WAL2KEY replacement key

Finish
• ANSI 61 gray polyester powder inside and out over phosphatized surfaces
• Optional side and back panels are white polyester powder over phosphatized surfaces
• Optional castor kits can be used on any enclosure to provide mobility
• Castor kit includes two swivel casters and two stationary casters along with all necessary hardware

Listings

WC14 NEMA 12 and 13 Operator Consoles

Applications
Designed to hold electrical and electronic controls and instruments. Pushbuttons, pilot lights, meters, switches, etc., can be mounted on the instrument panel. Interior components are mounted on stationary sub panels, swing-out sub panels or relay rack angles (panels are optional). Heavy-duty construction provides protection from dirt, dust, oil and water.

Construction

Base
- Bodies and doors fabricated from 14-gauge steel
- Seams are Continuously-welded and ground smooth, less knockouts or holes
- 3-point keylocking handle is provided on front main door
- Double overlapping doors are provided on two-door consoles
- Main hinged doors are flush
- One or two large sloping control panels are hinged on bottom
- Control panels have captivated screws threaded into sealed wells
- Door stops provided to hold control panel open
- Closed-cell neoprene gasket
- Horizontal channels are welded to sides of console to support optional panels and swing-out panels
- Grounding provisions provided
- Half, full and swing panels are optional
- An inclined body rail is welded to each side of 24 in [610 mm] wide and 36 in [914 mm] wide consoles for support of terminal straps
- Optional angle brackets, part number WC14R, are available for mounting 19 in [483 mm] rack equipment in the WC14B console
- Uses NWAL2 series handles and WAL2KEY replacement key

Top
- Fabricated from 14-gauge steel
- Top unit is 12.50in [64mm] deep to accommodate most instruments
- Four holes are provided for mounting to body
- Seams are Continuously-welded and ground smooth, less knockouts or hole
- Instrument and access panels have captivated screws which thread into sealed wells
- Closed-cell neoprene gasket
- Instrument panels and access panels are removable

Writing desk
- Fabricated from 14-gauge steel
- Seams are continuously-welded and ground smooth
- Desks are removable and attach easily to console front

Finish
- ANSI 61 gray polyester powder inside and out over phosphatized surfaces
- Optional panels are white polyester powder over phosphatized surfaces

Operator Consolets

Applications
Designed to house a variety of electronic control or instrumentation devices. Consolets provide protection from dirt, dust, oil and water. Flexible design allows for mounting on either of two sides, creating control surfaces of 30° or 60°. Consolets can be mounted on desktops, pedestals, or other flat surfaces.

Construction
• Bodies and doors fabricated from 14-gauge steel
• Seams are Continuously-welded and ground smooth, less knockouts or holes
• Captivated cover screws threaded into sealed wells
• Control panel is continuously hinged along bottom edge
• Closed-cell neoprene gasket
• Grounding provisions provided

Finish
• Painted Steel: ANSI 61 gray polyester powder inside and out over phosphatized surfaces
• Stainless Steel: #3 intermediate polished finish

Listings
• UL 508 12 and 13 (stainless steel also 4 and 4X) [UL File E64791]

CONSOLE CAN BE POSITIONED AT 30° OR 60° ANGLE
Pedestal Columns and Bases for Operator Consolets

Applications
Designed to permit floor-mounting of many types of enclosures and boxes. Four column and two base sizes are available. Columns can be mounted on either base. Wiring connections can be made through the base, through the vertical column, or directly to the enclosure. Columns have flanges at each end and a gasketed access plate. Screws, oil-resistant gaskets, and box connector fitting are furnished with each column for joining an enclosure to the top of the column. A cutout must be made in the enclosure if the wires are to come through the column.

Construction
Column
• Columns fabricated from 14-gauge steel with 10-gauge flanges
• Gasket, screws and connective fittings are furnished for mounting consolet
• Columns feature gasketed access plate

Base
• 18” bases are fabricated from 10-gauge steel
• 24 in [610 mm] bases are fabricated from 7 gauge steel
• Both bases have added reinforcing, leveling screws, and holes for securing to floor

Finish
• Painted Steel: ANSI 61 gray polyester powder inside and out over phosphatized surfaces
• Stainless Steel: #3 intermediate polished finish

Listings
• UL 508 12 and 13 [UL File E64791]
