

Product Advisory

Product Family:	DirectLOGIC	Number:	PA-DL-006
Part Numbers:	All DL06 CPUs	Date Issued:	04/18/2023
Subject:	Firmware Issue Affecting Input Status	Revision:	Original

Purpose

This Product Advisory is related to the improper operation of all DL06 CPU models with date code 2328A or later and firmware version 4.02. This firmware update resolves an issue with inputs turning on in logic when physical input is off.

Affected Products Hardware: DirectLogic DL105 products with the following part numbers:

Part Number	Affected Versions
D0-06-DD1	Date Code: 2328A Firmware Rev: 4.02
D0-06DD2	For all models.
D0-06DR	
D0-06DA	
D0-06AR	
D0-06AA	
D0-06DD1-D	
D0-06DD2-D	
D0-06DR-D	

Solution

Update firmware using firmware update tool 3.3.1. and new firmware provided on AutomationDirect website at the following link. Be sure to choose DL06 DC 2328A and above from the model type when doing update.
