Safety Information

WARNING: To minimize the risk of potential safety problems, you should follow all applicable local and national codes that regulate the installation and operation of your equipment. These codes vary from area to area and it is your responsibility to determine which codes should be followed, and to verify that the equipment, installation, and operation are in compliance with the latest revision of these codes.

Equipment damage or serious injury to personnel can result from the failure to follow all applicable codes and standards. We do not guarantee the products described in this publication are suitable for your particular application, nor do we assume any responsibility for your product design, installation, or operation. If the equipment is used in a manner not specified by the manufacturer, the protection provided by the equipment may be compromised.

Clean panel and screen surface only with a clean cloth moistened with water.

If you have any questions concerning the installation or operation of this equipment, or if you need additional information, please call technical support at 1-800-633-0405 or 770-844-4200.

This document provides simplified installation instructions and specifications. For complete installation and safety information download the EA3-USER-M User Manual at www.automationdirect.com/static/manuals/index.html

1 Unpack and Inspect

Unpack the **C-more** Micro panel from its shipping carton. Included in the carton are the following:

- **C-more** Micro panel
 - cutout template
 - mounting clips
 - gasket
 - Quick Start Guide
 - DC Power Connector
- Inspect all equipment for completeness. If anything is missing or damaged, immediately call the AutomationDirect returns department @ 1-800-633-0405.

1. Not included with EA3-S3ML-RN.
2. Not included with EA3-S3ML-RN and EA3-S3ML-R.

2 Install C-more Micro Panel

C-more EA3 Series Micro panels can be mounted through a cutout in an enclosure by using the template provided with the panel, or using the dimensions shown. The mounting enclosure material thickness range for the panels is 0.04"–0.2" [1–5 mm].

3 Provide Power to the C-more Micro Panel

EA3-S3ML-RN EA3-S3ML-R

EA3-S3ML-RN and EA3-S3ML-R panels have a single RJ12 serial port and are powered during programming from the USB port of a PC with an EA-MG-PGM-CBL cable assembly. During operation, these panels can be powered from most AutomationDirect PLC RJ12 communication ports by using a DV-1000CBL.

Notes: 1. EA3-S3ML-RN ships without a gasket. 2. To obtain the most current agency approval information, see the Agency Approval Checklist section on the specific part number's web page. 3. The touchscreen is designed to respond to a single touch. If it is touched at multiple points at the same time an unexpected object may be activated.					

Gasket and Function Key Label Installation and Removal

Gasket Installation*

Slide gasket over the rear of the panel and insert in the recess on the rear of the bezel.

Gasket Removal

Grasp the gasket and pull from the recess on the rear of the bezel.

*EA3-S3ML-RN ships without a gasket.

Function Key Installation and Removal

Step 1 - Remove gasket. Remove existing function key label insert using a small tool such as jeweler's screw driver.

Step 2 - Grasp and Pull the function key label from the slot to remove. To replace, slide the label into the slot in the side of the panel and lock tab into place.
