**WARNING:** To minimize the risk of potential safety problems, you should follow all applicable local and national codes that regulate the installation and operation of your equipment. These codes vary from area to area and it is your responsibility to determine which codes should be followed, and to verify that the equipment, installation, and operation are in compliance with the latest revision of these codes. Equipment damage or serious injury to personnel can result from the failure to follow all applicable codes and standards. We do not guarantee the products described in this publication are suitable for your particular application, nor do we assume any responsibility for your product design, installation, or operation. If the equipment is used in a manner not specified by the manufacturer, the protection provided by the equipment may be compromised.

Clean panel and screen surface only with a clean cloth moistened with water.

If you have any questions concerning the installation or operation of this equipment, or if you need additional information, please call technical support at 1-800-633-0405 or 770-844-4200.

**Safety Information**

### Quick Start Guide

**C-more EA3 Series Micro Panels, Accessories & Replacement Parts**

1. **Unpack and Inspect**
   - Unpack the C-more Micro panel from its shipping carton. Included in the carton are the following:
     - C-more Micro panel
     - cutout template
     - mounting clips
     - gasket
     - Quick Start Guide
     - DC Power Connector
   - Inspect all equipment for completeness. If anything is missing or damaged, immediately call the AutomationDirect returns department @ 1-800-633-0405.

2. **Install C-more Micro Panel**
   - C-more EA3 Series Micro panels can be mounted through a cutout in an enclosure by using the template provided with the panel, or using the dimensions shown. The mounting enclosure material thickness range for the panels is 0.04"–0.2" [1–5 mm].

3. **Provide Power to the C-more Micro Panel**
   - EA3-S3ML-RN and EA3-S3ML-R panels have a single RJ12 serial port and are powered during programming from the USB port of a PC with an EA-MG-PGM-CBL cable assembly. During operation, these panels can be powered from most AutomationDirect PLC RJ12 communication ports by using a DV-1000CBL.
   - For the remaining C-more Micro panels, refer to the charts below and the diagram to the right for power wiring connections.

---

This document provides simplified installation instructions and specifications. For complete installation and safety information download the EA3-USER-M User Manual at www.automationdirect.com/static/manuals/index.html
**Gasket and Function Key Label Installation and Removal**

**Gasket Installation**
Slide gasket over the rear of the panel and insert in the recess on the rear of the bezel.

**Gasket Removal**
Grasp the gasket and pull from the recess on the rear of the bezel.

**Function Key Installation and Removal**

Step 1 - Remove gasket. Remove existing function key label insert using a small tool such as jeweler’s screw driver.

Step 2 - Grasp and Pull the function key label from the slot to remove. To replace, slide the label into the slot in the side of the panel and lock tab into place.
