INSTALLATION, OPERATION, & MAINTENANCE DATA SHEET

CAUTION: Before installing, make sure you are compliant with area classifications - as failure to do so may result in bodily injury, death and property damage. Do not attempt installation until you are familiar with the following procedures. All installation must comply with the applicable Electrical Code(s). Make sure that all supply circuits are de-energized before starting installation or maintenance. Verify that the installation is grounded. Failure to ground will create electrical shock hazards, which can cause serious injury and or death.

Important: Please read these instructions carefully before installing or maintaining this equipment. Safe electrical practices should be followed at all times and this data should be used as a guide only. Maintain the environmental integrity of this enclosure by closing all openings w/UL listed or recognized components that have the same environmental rating as the enclosure.

INSTRUCTIONS:

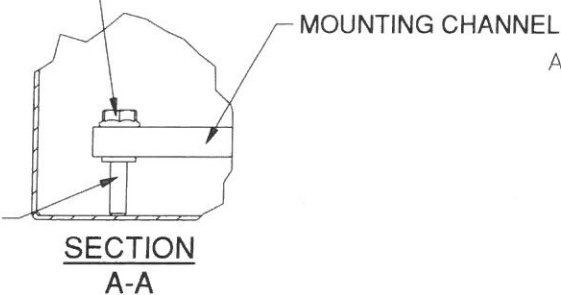

1. DETERMINE IF THE MOUNTING CHANNELS ARE TO BE INSTALLED HORIZONTALLY OR VERTICALLY.
