

STRIP GASKET INSTALLATION INSTRUCTIONS:

1. Wipe the application area with a clean dry rag to remove debris.
2. Stainless Material to be cleaned thoroughly in area gasket is to be applied with Glass Cleaner 101479 to insure adhesion (Do not apply any Stainless Clearer until after gasket has been applied)
3. Apply the gasket to the top of the door first as shown.
4. Apply the left and right side gasket tightly against the top gasket and bottom of door as shown, locating the hinge side gasket as shown.
5. Apply bottom gasket tightly against right and left gasket.
