

WDGDH10000

Linear equilization shaft
encoder holder for encoder types 58B

for length determination

Product data

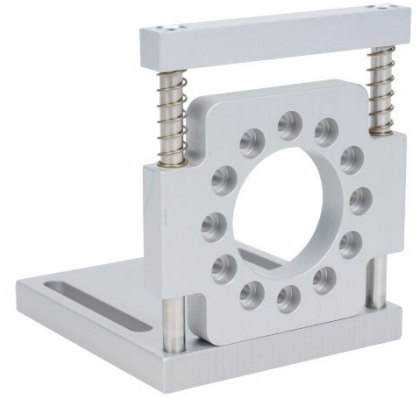

Highlights

- Installation from above
- Adjustable prestressing force 25 N
- Can be combined with the measuring wheels of 200 mm circumference

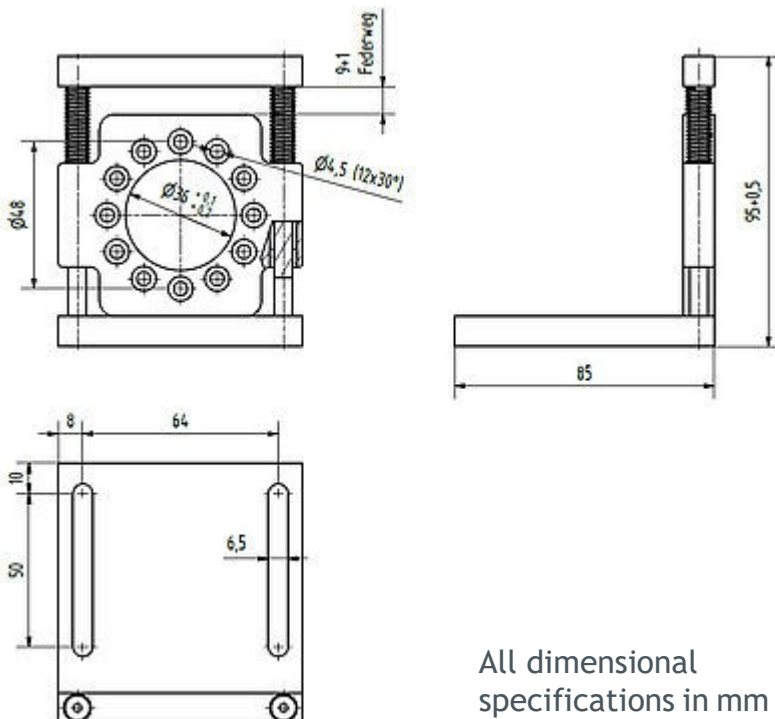

Spring travel Spring travel:
25 N = 8.4 mm

Weight approx. 300 g

Order number
WDGDH10000 Linear equalization shaft encoder holder
