WDGDS10004

Torque support WDGDS10004

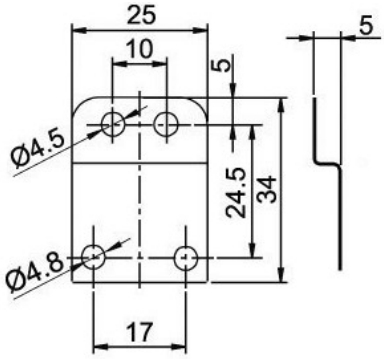

Torque support for hollow shaft encoders
and end hollow shaft encoders
(all types, except 36E)

Product data

Compensation	axial ±0.8 mm
	radial ±0.1 mm
Material	Stainless springsteel
Fixing	Screws for fixing to the encoder are enclosed.
	Screws for fixing to the machine are not supplied.
Order number(s)	
WDGDS10004	Torque support

Drawing WDGDS10004

All dimensional specifications in mm

All bending radii R=1
Size of plate t=0.3
