WDGDS10009

Torque support WDGDS10009

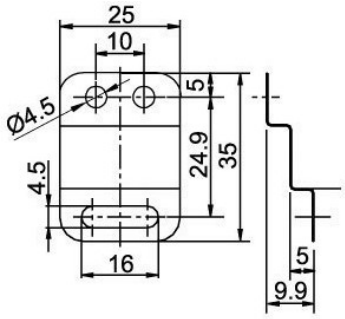

Torque support for hollow shaft encoders and end hollow shaft encoders (all types, except 36E).

Product data

Compensation	axial ±0.2 mm radial ±0.2 mm
Material	Stainless springsteel
Fixing	Screws for fixing to the encoder are enclosed. Screws for fixing to the machine are not supplied.
Order number(s)	Torque support
WDGDS10009	

Drawing WDGDS10009

All bending radii R=1
Size of plate t=0.3

All dimensional specifications in mm
