

IBOCO® Wire Duct – Slotted

Rigid PVC - Open Slot - Narrow Finger Wall Self-Adhesive -T1E Series

Overview

The T1E series of narrow-finger wire duct is made of rigid PVC that carries a UL 94V-0 flammability rating. Foam adhesive on duct provides a means of temporary positioning before fasteners are installed. Our wire duct comes in 6.56 ft [2m] lengths, complete with cover. Replacement duct covers can be purchased separately.

Features

- Standard mounting holes
- Narrow finger design for compact wiring configurations
- Rounded, burr-free edges will not cut installers' hands or wiring insulation
- Non-slip cover included
- Flush cover design holds 10–12% more wires than traditional designs
- Restricted slot design retains wires in slot for fast, easy wire installation or removal
- Temperature range -15 to 50°C [5 to 122°F]
- Available in 6.56 ft [2m] length
- Adhesive decreases installation time by holding position while the installer secures the wiring duct with fasteners or rivets
- Foam adhesive also provides a means to reposition the wiring duct for precision and optimize final placement
- Two predetermined break lines, one for breaking off and removing the sidewall finger segments only, and another for removing the sidewall finger and base segments
- Recess bosses in the base allow rapid mounting of wire retainers (CL series), inserts (ZP2) and separators (SEP series) inside the wire duct.
- Duct base perforation according to DIN 43659 and DIN VDE 0660 TEIL 506

Wire Duct – Accessories

Duct Separators

Duct separators allow the physical separation of circuits within a single piece of duct. The various mounting arrangements allow alternate compartmentalization of duct and differing ratios of usable sections.

Wire Retainers

For holding wires during wiring operations, these retainers are essential. They allow easy access to the interior of the wire duct during maintenance or alterations, while assuring that wiring bundles will not fall out when the duct cover is removed. Installed with a simple rotating movement, they anchor firmly in the recess boss in the duct base.

Wire Duct – Accessories

Duct Marking Tags

Part Number	Price	Description	Qty
DM1	\$,0ecf:	Single-width white cardboard identification label for wire duct. Supplied with black plastic mounting clip and transparent plastic cover slide	50

Note: **DM1** marking tags can only be used with T1 series wire duct.

Identification Tags

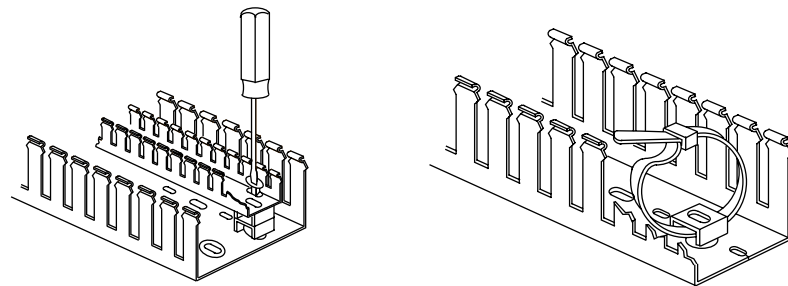

Allowing easy identification of control gear and switchgear, these tags are mounted by snapping the clip onto the sidewall finger segments of the duct. No gluing - no drilling! After installation, they need not be removed during maintenance or any work which involves the removal of the covers.

Note: Take care that clip is installed above the wires coming out to the sidewall slots.

Mounting Devices

Part Number	Price	Description	Qty
ZP1	\$,06pf:	Round, white polyamide 'button' used to mount components and separators inside duct.	100
ZP2	\$,04[-:	Square white polyamide cable tie mount used to tighten a wire bundle inside duct.	50

Mounting Inserts

We carry mounts in two styles: ZP1 for mounting components inside duct, or for mounting small sizes of duct inside larger sizes (for separation of circuits with different functions); and ZP2, which is used with a cable tie to secure a wire bundle inside the duct.

Wire Duct Rivets and Rivet Tools

Part Number	Price	Description	Qty
R4*	\$0ek9:	Blue polyamide rivet used to install all types of wire duct with standard 4.5 mm [0.17 in] mounting holes.	250
B4	\$,04,v:	Red polyamide rivet tool used to install R4 rivets.	1
R6*	\$0eka:	Natural polyamide rivet used to install all types of wire duct with standard 6.5 mm [0.26 in] mounting holes.	250
B6	\$,04,x:	Yellow polyamide rivet tool used to install R6 rivets.	1

* R4 drill hole size - 5/32" (4mm), R6 drill hole size - 7/32" [5.5 mm]
When using with Flexible wire duct, only the R4 rivet will currently work.

Rivets and Rivet Tools

Wire duct rivets install quickly and easily with the companion rivet tool, offering good temperature resistance and excellent mechanical properties. They can be used to install all types of wire duct with standard mounting holes.
