

Do it all with our practical PLCs!

Discrete, Analog and Communications

NEW
DC output modules
with electronic
short circuit protection,
\$119

DISCRETE: Choose from **25 discrete modules** that support AC, DC and relay I/O types. All modules have removable terminal blocks for easy wiring and module replacement. Our newest DC output module performs electronic short circuit protection.

ANALOG: **19 analog modules** offer interfaces to current and voltage signals, as well as thermocouples and RTDs. Connect devices such as process transmitters, proportional valves and AC drives.

COMMUNICATIONS: The DL205 series makes **Ethernet communications** easy and inexpensive. Get fast peer-to-peer access to HMI, other PLCs and PCs on the factory floor at one of the lowest costs per node in the industry.
