Short-Circuit Current Rated Power Distribution Blocks

Short-circuit current ratings (SCCRs) are now required for certain 2005 NEC® and UL508A listed industrial control panels. We now offer distribution blocks that help you satisfy that requirement, all at AutomationDirect's every day low prices!

Finger-safe distribution blocks

Edison Finger-safe Power Distribution Blocks (EPDB series) have the increased spacing required for use in feeder circuits and branch circuits on equipment listed to UL508A. These blocks accept copper conductors and maintain an SCCR rating of 200kA. They are UL1953 listed.

You get:

- Fully enclosed 1-pole blocks for touch-safe isolation of live parts
- Ampere ratings from 175 to 760A max.
- IP20 rating under specific conditions
- Integrated DIN-rail or direct panel mounting
- Captive termination screws cannot be lost
- Components suitable for use in UL508A panels for feeder and branch circuit applications; also for 2005 NEC requirements for power distribution blocks in wireways

Open-style terminal blocks for cable termination

Edison Open-style terminal blocks (PB series) can maintain an SCCR rating of 200kA with the proper fusing and the use of copper conductors.

Features

- Ampere ratings of 175 - 760A max.
- 1, 2 and 3-pole models
- Safety covers for greater protection (purchase separately)
- For UL508A panels for branch circuits

CHECK OUT PRICES ON DISTRIBUTION BLOCKS

Product Description	AutomationDirect Price/Part Number
Finger-safe power distribution block, 175A max, 1 pole, 200kA SCCR rating	\$8.25 EPDB101
Finger-safe power distribution block, 760A max, 1 pole, 200kA SCCR rating	\$52.50 EPDB702
Open-type power distribution block, 175A max, 1 pole, 200kA SCCR rating	\$6.75 PB1011
Open-type power distribution block, 310A max, 2 pole, 200kA SCCR rating	\$39.00 PB3122
Open-type power distribution block, 380A max, 3 pole, 10kA SCCR rating	\$42.25 PB4013
