

Sensors you need

At AutomationDirect Prices

Proximity

- Inductive, capacitive and ultrasonic technologies
- 3 mm to 30 mm round with standard sensing distance
- 8 mm to 30 mm round with double/triple sensing distance
- Rectangular formats
- Stainless steel round models
- AC and DC supply voltages available
- 2-, 3-, and 4-wire output configurations
- Analog output models
- Embedded cables and quick-disconnects in M8 and M12

Photoelectric/Fiber optic

Photoelectric

- 8 mm threaded round, metal or plastic with diffuse, retroreflective, through-beam or background suppression sensing
- Straight or right-angle optics
- Rectangular formats with diffuse, retroreflective, through-beam or background suppression sensing
- 5 mm threaded round in diffuse or through-beam styles

Fiber optic

- Supreme noise protection and small sizes for tough applications
- 18 mm round and DIN-rail amplifiers
- 4, 6 and 7 mm fiber heads available
- 2.2 mm diameter cuttable plastic fibers

Pressure sensors and current sensors

- Pressure switches sense up to 5,800 psi; transmitters are available to sense pressure or vacuum
- Current transducers sense up to 2,000 amps; switches are adjustable, with ranges up to 200A; Fixed and split-core styles
