

BRX The 1st micro PLC with a can-do attitude

Stand-alone PLC Unit

Expansion Modules

The new BRX Micro PLCs are determined to get it done!

The new BRX PLC family incorporates many high-level features in a small, solid package - allowing it to stand strong no matter the challenge. Loaded with options and using the very popular Do-more! DM1 technology as its engine, this micro controller packs a big punch for a little price!

Starting at
\$199.00

(BX-DM1-10AR-D)
with 10 built-in discrete I/O

The BRX PLC family offers:

- Advanced motion control
- Robust data logging
- Onboard serial and Ethernet ports
- Discrete, high-speed and analog I/O
- Expansion capabilities
- Interchangeable communications port
- Free programming software (with simulator)
- Integrated video help
- Free technical support
- Much, much more...

CPU and I/O Comparison	AutomationDirect BRX PLC	vs.	Allen-Bradley Micro 800	vs.	Siemens S7-1200	vs.	IDECC FC6A
PLC Unit (with Ethernet)	\$473.00 BX-DM1E-36ED13-D		\$642.00 2080-LC50-480VB		\$814.00 6ES7 214-1AG31-0XB0		\$550.00 FC6A-C40K1CE
(28) 24VDC Inputs	\$38.00 BX-08ND3 (8-pt DC IN module + 20 DC IN on PLC unit)		Built-in (28 DC IN on PLC unit)		\$443.00 6ES7 221-1BH30-0XB0 (16-pt DC IN module + 14 DC IN on PLC unit)		\$95.00 FC6A-N08B1 (8-pt DC IN module + 20 DC IN on PLC unit)
(20) 24VDC Outputs	\$45.00 BX-08TD1 (8-pt DC OUT module + 16 DC OUT on PLC unit)		Built-in (20 DC OUT on PLC unit)		\$443.00 6ES7 222-1BH30-0XB0 (16-pt DC OUT module + 16 DC OUT on PLC unit)		\$140.00 FC6A-T08K1 (8-pt DC OUT module + 16 DC OUT on PLC unit)
(4) Analog Inputs	Built-in (4 Analog IN on PLC unit)		\$149.00 2080-IF4		\$330.00 6ES7 234-4HE30-0XB0 (4x12-bit Analog combination module)		\$359.00 FC6A-L06A1 (4x12-bit Analog combination module)
(2) Analog Outputs	Built-in (2 Analog OUT on PLC unit)		\$89.00 2080-OF2				
Total System Price	\$556.00		\$880.00		\$2,030.00		\$1,144.00
