BRX

Starting at **\$197.00**

(BX-DM1-10AR-D)

with **FREE Software**

The Do-more! BRX PLC series is loaded with hardware and software features that provide an extensive toolbox to satisfy even the most demanding projects.

- Four form factors to choose from
- Serial/Ethernet comm ports included on most models (with support for Modbus RTU/TCP, ASCII, EtherNet/IP, MQTT and HTTP)
- Built-in discrete, analog and high-speed I/O with advanced motion control
- Internal RAM and microSD data logging
- Free PLC programming software with over 200 easy-to-use instructions, integrated video help, and a convenient project simulator

Modbus®
EtherNet/IP
ASCII
MQTT
HTTP
DMX512

Check out what's new:

- **NEW!** Temperature combination modules combine RTD or thermocouple inputs with current outputs for monitoring and control from the same module!
- **NEW!** Two high-speed I/O expansion modules (BX-HSIO1 and 2) and a serial communications module (BX-SERIO) have been added, giving BRX PLCs even more motion and communication capabilities
- **NEW!** High-density 16-channel analog input modules and space-saving combination analog in/out modules
- **NEW!** JSON PARSE/BUILD instructions, along with the HTTP protocol addition, enable communication between BRX PLCs and data rich web servers
- **NEW!** The DMX512 protocol allows BRX PLCs, using the BX-SERIO module, to control stage/theater lighting and effects
