Take advantage of the clear and colorful graphics on the **TFT color touch screen** to create a vibrant and intuitive operator interface. **Five programmable function keys** give you lots of flexibility. **FREE programming software** offers the choice of using many built-in objects, such as buttons, bar graphs and data entry keypads. Or import your own custom graphics, and save to libraries for use in multiple projects. Alarm control, recipes and a built-in project simulator are time-saving tools for more complex applications.
