

Need new controls?

Spend Less. Do more!

Try our practical supercharged Do-more® PLC

Whether replacing or starting from scratch on a control system, why not consider the Do-more PLC? We took the best ideas for practical product design and created the Do-more H2 series - an incredibly powerful controller at an incredible bargain.

Attention DirectLOGIC 205 users!

This is an all-new, more powerful instruction set. And the latest version of Do-more Designer software includes a utility to help convert your current DL205 system ladder logic into a Do-more program. Take advantage of the latest technology without replacing your I/O hardware!

For just \$399, the H2-DM1E CPU includes:

- **1Mb memory** for program, its documentation, and user-partitioned data types
- Onboard communication ports include USB, serial, plus Ethernet with Modbus TCP or I/O support
- **Up to 256 I/O in one base, and thousands more with optional Ethernet-connected I/O**
- Supports discrete, analog, motion, and additional serial and Ethernet communications modules
- Powerful instruction set featuring easy-to-configure math, trending and motion

\$399
includes Ethernet port

Machine Control

Basic Process

Motion

Ethernet-connected I/O

Get plenty of I/O in the local base, or expand with Ethernet-connected I/O right from the CPU. Create your programs and documentation with the **FREE Do-more Designer software**. Download it online - with the built-in simulator, you can try out your logic right away.
