

Save on energy costs

with AC drives

High-quality AC drives pay for themselves in a hurry

Variable speed drives can improve your bottom line by reducing your motors' energy consumption.

An investment of as little as \$99 can start paying off immediately.

- GS1 AC drives (1/4 to 2 hp) offer simple Volts/Hertz control for general purpose applications. Built-in I/O, Modbus communications capability and programmable preset speeds increase its flexibility.
- GS2 AC drives (0.5 to 10 hp) feature built-in PID control, dynamic braking and Modbus communications.
- DuraPULSE AC drives (1 to 100 hp) add sensorless vector control, a removable keypad that stores up to four different application programs, and built-in discrete and analog I/O. Communicate via built-in Modbus or an optional Ethernet connection.
