

Beat the heat with AutomationDirect

Enclosure Air Conditioners and Fans

AutomationDirect's Stratus® electrical enclosure air conditioners are closed loop cooling systems that keep the ambient air outside an enclosure, cabinet or control panel separate from the internal air.

Stego Filter Fans and Exhaust Grilles are an economical way to provide industrial cabinet enclosure cooling.

Enclosure Air Conditioners

- 1,000 to 8,000 BTU/hour models
- Available in 120V, 230V and 480V supply voltages
- For NEMA 12, 4, 4X type electrical enclosures
- Digital temperature controller
- Active condensate evaporation system
- High unit efficiency
- Tough industrial construction
- Compressor protection system

Filter Fans

- Easy filter change
- Indoor and outdoor installation versions available
- Outer door lock for outdoor models
- Impact resistant
Weather/UV resistant UL 94V-0 (indoor)/UL94H-B (outdoor)
- No-screw installation - except outdoor models
(optional mounting screws for additional support)
- Low noise
- 120 VAC and 24 VDC models available
