at AutomationDirect prices!

NEW!

Single and Double Foot Switches with ABS Plastic or Die-Cast Aluminum Foot Guards

Use foot switches to control equipment where you need ergonomic flexibility or hands-free operation. These heavy-duty switches are available in a variety of configurations, starting at \$39.

Features:

- Plastic unit materials: Base, cover and pedal of shock-resistant ABS plastic, **starting at \$39.**
- New! ... Aluminum unit materials: Base and pedal of shock-resistant ABS plastic; cover of die-cast aluminum, **starting at \$59.**
- All foot switches have heavy duty ABS plastic bases with 4 skid proof pads per base
- Double foot switches include a 16-inch carrying rod
- Normally open and normally closed contacts with snap action or slow action
- Operating (ambient) air temperature: - 10 to + 70°C (14°F to 158°F)
- Degree of Protection: IP65
- Standards: IEC 947-5-1
- Certifications - Approvals: UL/CUL file E191072, CE
- Standard 1-year warranty

Pedal Configurations:

- **Free movement, momentary actuating pedal**
Freely moving pedal - contact position follows pedal movement; actuated when the pedal is pushed down, released when pedal is released.
- **Safety anti-trip, free movement, momentary actuating pedal**
Operator must insert foot, pushing lever forward to actuate pedal. Then, same operation as free movement.
- **Free movement, maintained actuating pedal**
Once pedal is pressed down, lock mechanism holds it in place. Operator must insert foot to disengage lock and release pedal.

Applications:

- Shearing machines, spinning machines, spinning lathes, machine tools, wrapping machines, riveting machines, riveting presses, etc
