How good can FREE actually be?...

Now that's a great question to ask, why don't we let our customers answer it:

"Unbelievable performance and ease of use. Tag based addressing is wonderful. Already making plans to purchase additional P2000's."
Matt in SPRINGFIELD, MO

"I am thoroughly impressed with the performance of the hardware and software. Some of the instructions are incredible time savers. I really like being able to make most any instruction into a oneshot. The message instruction allows mixing data types and reading to or writing from any list of tags to a group of Modbus addresses in a single message. What would have taken 32 messages in another product, I am doing with four in the P2-550..."
Paul in NORMAN, OK

"...We like the idea that all the drive parameters are stored on the CPU, and can be downloaded to a drive when needed which is great for the maintenance staff (no more having to scroll through menus to configure the drive!)..."
Todd in ONTARIO, CA
