Our shipping policies make it easier than ever to order direct from the U.S.!

Free standard shipping is available for orders totaling over \$49 U.S. (except for orders which require LTL shipping, see Web site for details). Also, save on brokerage fees when shipping standard ground to Canada - you can choose to allow AutomationDirect to nominate a broker for your shipment for parts shipping via standard ground. This can save you big on brokerage fees. See Web site for details and restrictions - www.automationdirect.com/canada

Easy DAQ or SCADA with low-cost I/O and practical software

Use the technology built into the Productivity3000 programmable controller to make your job easier. If you need data collection - from the factory floor, lab, or field - it's a system worth looking at.

One program instruction in the controller connects and passes data to all the common database formats - Microsoft Access, ODBC, and SQL Server. Low-cost server software (DataWorx P3K, starting at \$595) makes the data readily available to your upstream application.

The **FREE** Productivity Suite programming software comes with a trial version of DataWorx P3K, so you can experiment with and test your database application with no risk!

For simple data logging, the CPU can write data to a removable mass storage device (USB) on an event or time basis.

Read more, watch free videos, and download the **FREE** software at:
