

# Don't let noise bring you down

ADPV Series  
Starting at:  
**\$199.00** U.S.  
ADPV12001

ADPH Series  
Starting at:  
**\$399.00** U.S.  
ADPH12010

## Features

- Compact design
- Integral 35mm DIN rail attachment
- Contains no replaceable parts or items that require periodic maintenance
- Three-wire design has normal and common mode protection (L-N, L-G, N-G)
- 120VAC or 240VAC input voltage, single phase; 50Hz / 60Hz operation
- ADPV series: 1A, 3A and 5A models; w/LED
- ADPH series: 10A and 15A models; w/LED and alarm contacts
- 10-year warranty
- UL1449 3rd Ed - Type 2 SPD

## Paying a little protection money can be a good thing ...

The new AEGIS Series Powerline filters/surge protectors from Eaton protect against the full spectrum of transient disturbances and are engineered to filter the entire sine wave. The filters react instantly to changes in voltage regardless of phase angle or polarity. As a result, AEGIS devices are effective against both low- and high-energy transients to prevent immediate equipment damage as well as failure of sensitive electronic equipment over time.

## Applications

- Process control systems
- Operator interface stations
- Programmable logic controllers (PLCs)
- Alarm systems
- Robotics
- Control equipment
