## ProSense™ Dial Pressure Gauges and Thermometers

ProSense mechanical dial pressure gauges are low-cost, reliable instruments for displaying pressure readings in most pneumatic, hydraulic, HVAC, plumbing, industrial and commercial applications. These high-quality pressure gauges use Bourdon tube sensing elements and carry a 5-year warranty.

### Pressure Gauges

- Durable steel or stainless steel, and dry or liquid filled models
- Liquid filled gauges dampen the effects of vibration and pulsations to reduce needle fluctuation.
- Brass wetted parts suitable for air, oil, or water
- Stainless steel wetted parts ideal for applications involving corrosive materials
- Dual marked gauge dial faces available in pressure ranges from vacuum up to 6,000 psi
- Center back mount or lower stem mount pressure connection

Bi-metal dial thermometers supply accurate temperature monitoring in industrial process and automation applications.

### Thermometers

- 304 stainless steel, 3- or 5-inch dials
- Back mount or adjustable angle with 1/2" NPT
- Probe thermometers feature welded stem lengths from 2.5" to 9"
- Dual scales in Fahrenheit and Celsius
- Optional thermowells
- 5-year warranty
