

Light it up!

with Stack Lights

NEW!

Worth a thousand words

Sometimes lights and sounds are a better way to communicate! Our **NEW** modular stack lights from WERMA give you total choice and flexibility to create a free combination of optical and audible signal elements. The 70mm IP65-rated KS 71 series allows up to five elements per terminal base; the 50mm KS 50 IP54-rated system supports up to four elements. Rugged construction and no-tools assembly means reliable operation and easy maintenance in applications such as machine tools, packaging machinery and conveyor systems.

Mix, match and go!

- Signal elements in common voltages (24VDC and 115VAC)
- KS 71 series offers Incandescent, LED and Xenon light elements in five colors; select elements support blinking, flashing and rotating effects; starting at \$20.50
- KS 50 series offers Incandescent and LED lights in five colors, starting at \$20
- Audible elements include buzzers and multi-functional sirens
- Variety of mounting options for installation flexibility, including wall, tube, magnetic and foldaway styles

Simple assembly with bayonet mechanism

- Simple mounting and removal of the elements
- New combinations at the twist of a hand
- Tool-free bulb change
