Protect both people and machinery with affordable safety devices

Trapped Key Interlock System - SX and ZRH Series

A trapped key system uses a series of mechanical locks and keys to control the access to gates or doors for equipment or machines.

Dold Safemaster Trapped Key System Gate Sets provide a full trapped key safety system, in one- to five-gate sets. They are available in either standard (SX) or solenoid-locking (ZRH) versions.

All keys and their corresponding 01 and 10 modules are unique within a set. Also available are tongue key actuators (purchased separately from the gate sets), and optional items such as door actuators, captive safety key sets, key modules for key exchange box setup, and mounting plates.

- Easy installation through comprehensive accessories
- Mechanical safeguarding
- One- to five-gate sets available
- 316L stainless steel interlock safety switch body, coded trap key modules, coded keys, and tongue (key) gate actuator modules
