

GET YOUR MESSAGE ACROSS

with ViewMarq® industrial displays

Built-in Ethernet {all models}

Industrial LED message displays keep your plant personnel in the know

The new ViewMarq LED message boards can display preformatted and real-time factory floor data messages sent by a PLC, PC, or other master device. The text message displays can be controlled by:

- ASCII strings through the RS232 or RS485 port
- Modbus RTU messages through the RS232 or RS485 port
- Modbus TCP messages through the Ethernet port

The Viewmarq line offers:

- One-, two-, and four-line displays
- Viewing distances up to 400 feet and 140 degree viewing angle
- (1) RS232, (1) RS485 and (1) Ethernet port standard on all models
- Scrolling, blinking capability
- NEMA 4 / NEMA 12 extruded aluminum housings suitable for harsh environments

Use the FREE Viewmarq configuration software (*online download*) to configure the display; create, preview and send messages from a PC; or create ASCII strings that can be transferred to PLC instructions to control the Viewmarq.
