C-more Micro HMI Panels

C-more Micro panels are small in size, packed with features, and priced for the tightest of budgets. With screens as large as 10-inch, you can effectively display text, graphics, or bitmaps easily and affordably. These value-packed panels also come with FREE programming software. When it comes to HMIs, you'll always get more with C-more!

- Micro touch panel and non-touch panel versions available
- The 3-inch cost-conscious panels display standard or high contrast STN monochrome graphics with five selectable background colors
- 32K color TFT displays are available in 4-inch, 6-inch, 8-inch and 10-inch models
- Several options, including plug-and-play keypad bezels, are available for select models
- Free programming software with simulator
- Full 2-year product warranty
