

Safety is vital

Protect both people and machinery with affordable safety devices

At these prices, even the simplest systems can have safety built in

LIGHT CURTAINS

Starting at:
\$582.00

AutomationDirect now offers three series of Contrinex safety light curtains; the YBB-14 series with 14mm resolution for finger protection, the YBB-30 series with 30mm resolution for hand protection and the YCA series with 300mm and 400mm resolutions for body protection. Prices start at \$582.00 for sender/receiver pair.

- Double PNP outputs
- M12 quick-disconnect models (order cable separately)
- Mounting brackets included
- IP65, IP67 rated
- Mirror Columns available for multi-sided safe guarding of danger zones

SAFETY SWITCHES

Starting at:
\$13.00

Choose from a broad range of contact and non-contact safety switches for interlocking operations.

- 22, 30 and 40mm footprint tongue key operated safety interlock switches
- Standard or solenoid interlock versions
- Pull cord systems in 50, 80 and 100m lengths
- Safety limit switches with tongue key, shaft hinge, lever-hinge and cable-pull style actuators

SAFETY RELAYS

Starting at:
\$88.00

These dependable Dold safety relays are designed to protect people and machines in applications requiring safety interlocks and controls. Prices start at \$88.00.

- Single and dual-channel E-Stop
- Dual-channel E-stop/safety gate with time delay
- Light curtain controller
- Speed monitor
- Standstill monitor
- Two-hand controllers

TRAPPED KEY SYSTEMS

Starting at:
\$1,019.00

Dold trapped key systems use a series of mechanical locks and keys to control access of gates or doors to running equipment or machines. Prices start at \$1,019.00 for a 1-gate set.

- One- to five-gate sets
- Standard or solenoid control versions
- Keys identical within a set, but unique to any other set
- For safety applications up to PLe/Category 4 according to EN/ISO 13849-1
