

AC Servo Systems

start under \$1,000

The **SureServo** family of brushless servo systems from AutomationDirect is fully digital and offers a rich set of features at dynamite prices. Beginners to experienced users can take advantage of this easy-to-use family for as little as \$965* (100W system).

* All components sold separately.

- Eight standard systems from 100 W to 3 kW
- Use with *DirectLOGIC* PLCs or any other host control
- Drives feature on-board indexer and adaptive tuning modes
- Free set-up software
- 2 year warranty

SureServo drives accept a wide range of command sources:

- Built-in motion controller with preset position, velocity or torque select presets with switch inputs and/or the multi-drop Modbus serial interface
- Position commands with "pulse/direction" or "count up/down" format
- Encoder follower
- Analog voltage Velocity or Torque command

For configuration, tuning and diagnostics, use the drive's integrated keypad/display or take advantage of the free *SureServo Pro*™ PC-based software.
