

Boost your savings

With quality transformers from AutomationDirect

Encapsulated Transformers

Our Hammond Power Solutions and new ACME 3-phase encapsulated transformers are ideal for commercial/industrial applications where quality, ease of installation, and low cost are key. These transformers are encapsulated with electrical grade silica sand and resin compounds that completely enclose the core and coil to seal out moisture, airborne contaminants and eliminate corrosion.

- NEMA 3R rated (for indoor/outdoor use)
- Transformer sizes range from 100VA to 25kVA (HPS) and 3kVA to 15kVA (ACME)
- Input voltage ranges from 120 to 480VAC (HPS 1-phase) and 480VAC Delta to 600VAC Delta (ACME 3-phase)
- Output voltages of 240 and 120VAC (HPS) and 208Y/120VAC, 480Y/277VAC, 240 Δ /120VAC (ACME)
- 10 year warranty (limited to manufacturer defects)

Compact Control Transformers

Designed for high inrush applications requiring reliable output voltage stability, these transformers maximize inrush capability and output voltage regulation when electromagnetic devices are initially energized.

- 600V class, machine tool rated
- 50/60 Hertz
- VA range from 50VA up to 1500VA
- Temperature Range: -20°C (-4°F) to 40°C (104°F) (176°F), insulation class 130°C (266°F)
- LIFETIME warranty (limited to manufacturer defects)

Jefferson Electric Buck-Boost Transformers

Designed to maximize performance and life of electrical equipment, buck-boost transformers are typically used to power loads with specific voltage requirements that differ from the available line voltage.

When connected as an autotransformer, these units can buck (lower) or boost (raise) available line voltage from 5 to 20 percent.

- Single-phase units from 50VA to 2kVA (individual units required for multiple phases)
- Encapsulated with electrical grade resin
- Cores of high-quality electrical steel
- 60Hz operation
- NEMA 3R rated enclosure
- Slotted mounting holes for quick and easy mounting
- 10 year limited warranty (limited to manufacturer defects)
- Built in accordance with UL1446, CAN/CSA - C22.2 No. 0
- Agency Approval UL File #E4466
