

Pliers & Cutting Tools

Cable Cutting Pliers

CHANNELLOCK® Cable Cutting Pliers feature improved high alloy steel construction and a unique cutting design that easily cuts through battery cables and other soft metals. These pliers handle cable up to 4/0 aluminum and 2/0 copper with ease, making them ideal for electrical, automotive, and battery service applications. Induction heat-treated cutting edges provide clean shearing action through soft metals for superior performance and longevity. CHANNELLOCK Cable Cutting Pliers are forged from high alloy U.S. steel that is specially coated for ultimate rust prevention.

Features

- Cuts cable up to 4/0 aluminum and 2/0 copper
- Induction heat-treated cutting edges shear through soft metals
- High alloy steel construction for ultimate strength and durability
- CHANNELLOCK BLUE® grips for comfort
