## GS2-27P5 Cut Sheet

AutomationDirect GS2 series AC micro drive, enclosed, 230 VAC, 7-1/2hp with 3-phase input, V/Hz mode, B frame, RS-232/RS-485, integrated dynamic braking.

#### **Technical Specifications**

| Brand                                     | AutomationDirect                        |
|---|---|
| Item                                      | Drive                                   |
| Controller Type                           | Micro                                   |
| Series                                    | GS2                                     |
| Voltage Type                              | AC                                      |
| Nominal Drive Input Voltage               | 230 VAC                                 |
| Nominal Drive Output Voltage              | 230 VAC                                 |
| Number of Input Phases                    | 3                                       |
| Number of Output Phases                   | 3                                       |
| Horsepower By Input Phase                 | 7-1/2hp with 3-phase input              |
| Amperage Rating                           | 25A                                     |
| Variable Torque<br>Amperage Rating        | 25A                                     |
| Control Mode                              | V/Hz                                    |
| Safe Torque Off (STO)                     | No                                      |
| Temperature Rating                        | -10 to 40 deg C                         |
| Enclosure Type                            | Enclosed                                |
| IP Rating                                 | IP20                                    |
| Mounting                                  | Panel or wall                           |
| Frame Size                                | В                                       |
| Dynamic Braking                           | Integrated dynamic braking              |
| Communication Port and Connection Type(s) | (1) RS-232/RS-485 (RJ12)                |
| Port Protocol(s)                          | Modbus RTU Modbus ASCII                 |
| Port Speed(s)                             | up to 38.4k baud                        |
| Input Signal                              | 4-20 mA, voltage or potentiometer input |
| Output Type                               | PWM output                              |
| Reverse Capability                        | Built-in                                |
| Internally Bypassed                       | No                                      |
| Carrier Frequency Range                   | 1-12 kHz                                |
| Output Frequency Range                    | 0.1-400 Hz                              |
| Number of Analog<br>Input Channels        | 1                                       |

| Number Of Input Channels                         | 1                        |
|--|--------------------------|
| Analog Input Signal Type                         | Current/voltage          |
| Number of Non-Isolated<br>Analog Input Commons   | 1                        |
| Number of Points per<br>Analog Input Common      | 1                        |
| Input Resolution                                 | 10-bit                   |
| Input Current Signal Range                       | 0-20 mA and 4-20 mA      |
| Input Voltage Signal Range                       | 0-10 VDC                 |
| Number of Analog<br>Output Channels              | 1                        |
| Number Of Output Channels                        | 1                        |
| Analog Output Signal Type                        | Voltage                  |
| Number of Non-Isolated<br>Analog Output Commons  | 1                        |
| Output Resolution                                | 8-bit                    |
| Output Voltage Signal Range                      | 0-10 VDC                 |
| Number of Discrete<br>Input Points               | 6                        |
| Nominal Discrete<br>Input Voltage                | 24 VDC                   |
| Discrete Input Type                              | Sourcing                 |
| Number of Non-Isolated<br>Discrete Input Commons | 1                        |
| Number of Points per<br>Discrete Input Common    | 6                        |
| Number of Discrete<br>Output Points              | 2                        |
| Nominal Discrete<br>Output Voltage               | 240 VAC and 24 VDC       |
| Discrete Output Type                             | Relay                    |
| Relay Configuration                              | (2) Form C (SPDT) relays |
| Number of Isolated<br>Discrete Output Commons    | 2                        |
| Number of Points per<br>Discrete Output Common   | 1                        |

# GS2-27P5 Cut Sheet

| Load Current   | 2.5A/point                  |
|----------------|-----------------------------|
| Fuse Type      | User-supplied external fuse |
| Connector Type | Screw terminals             |
| For Use With   | 3-phase induction motors    |

#### Agency Approvals

| UL Listed File #     | E198015                |
|----------------------|------------------------|
| UL Recognized File # | None                   |
| UL Hazardous File #  | None                   |
| CE                   | View CE declarations   |
| CSA File #           | None                   |
| RoHS Status          | No                     |
| EU REACH             | View EU REACH document |
