## Technical Specifications

|                           |               |
|---------------------------|---------------|
| Brand                     | Penn-Union    |
| Item                      | Power bar     |
| Power Bar Type            | Pre-insulated |
| Entry Type                | Double-sided  |
| Number Of Conductor Ports | 3             |
| Material                  | Aluminum      |
| Color                     | Black         |

|                      |                    |
|----------------------|--------------------|
| Conductor Bolt Style | 7/32in hex         |
| Conductor Size       | 14-2/0 AWG         |
| Conductor Material   | Copper or aluminum |
| Voltage Rating       | 600V               |
| Dual Rating          | AL9CU              |
| Includes             | Oxide inhibitor    |

## Agency Approvals

|                      |                                                                     |
|----------------------|---------------------------------------------------------------------|
| UL Listed File #     | E12822                                                              |
| UL Recognized File # | None                                                                |
| UL Hazardous File #  | None                                                                |
| CSA File #           | None                                                                |
| RoHS Status          | Meets RoHS Chemical Restrictions - No CE (See RoHS Statement Below) |
| EU REACH             | <a href="#">View EU REACH document</a>                              |
| Other                | <a href="#">RoHS Statement</a>                                      |
